

**1993 G&L SB-2 Bass
Wiring Diagram**

Pots are 250K ohm, audio taper, solid shaft, CTS or equivalent. Jack is standard ¼" mono phone jack, Switchcraft or equivalent. Hookup wire used should be 20 or 22 gauge, stranded copper. Note that "star" ground can be any common *single* ground point.

Drawing created on 1/21/2005, and revised 10/30/2006.
